BOMA·ICSM Instant Connect

Send a Broadcast Message

Record and simultaneously relay a personalized voice message to up to 30 numbers by placing just one call. Boma IC eliminates the need for phone trees or serial calls when sending the same message to multiple people.

Initiate an Instant Conference

Invite people to join you in an on-the-spot conference call. Connect with up to 10 people by placing one call. Simply record a personalized invitation, then stay on the line as others join your conference.

Improved Group Communications in One Call

Use Boma IC as a complement or alternative to text communications and one-to-one phone calls when you want to communicate with a group right away.

- **Personal Communications.** In one call, share important news, coordinate schedules, poll for responses, or chat.
- **Business Communications.** In one call, contact and collaborate with work teams, relay important updates, or facilitate group interaction.
- **Organizational Communications.** In one call, send a reminder, notify a group of a last-minute change in schedule or discuss an upcoming event.

Powerful Technology That's Simple yet Effective

Boma IC is based on patent-pending technology that makes it simple, fast and easy to connect with groups in one call.

- **Always Available.** 24/7 calling and online account access.
- **Easy to Set Up and Affordable.** Works with any phone/any service carrier. No hardware to buy or software to download.
- **Reliable and Secure.** Proven technology and secure systems you can trust.

About Boma Systems, Incorporated
