

Push 5 Urgent Alerts

Push 5SM

www.Push5.com

Get help from family and friends with one touch to your cell phone.

Turn Your Phone Into a Personal Protection System

Push 5 instantly connects you with up to 12 people at home, cell and work phones and by e-mail and text message. In one call:

- **Broadcast alerts in your own voice:** when you call, we prompt you to say where you are and what's wrong – then we relay it to all your contacts simultaneously.
- **Get help on an Instant Conference call:** after your alert, we connect you with all your contacts in an instant conference call.
- **Always on, always protecting:** even if you get disconnected or can't speak, Push 5 still sends out an alert notifying your contacts you need help – and connects them to an instant conference call.

Easy Setup on any Phone

Push 5 works with any phone and any phone service carrier. There is no hardware to purchase or software to download. Register at www.Push5.com and get Push 5 protection in minutes.

Affordable

Push 5 costs only **\$24 per year** per phone for individuals or small organizations. The Pro/Hostile Intruder Alert version is also available for schools and companies.

Ideal for anyone

It is impossible to predict when you may need help. With Push 5, you're always prepared.

- An elderly parent is able to instantly alert his children for assistance.
- A group of college friends help each other stay safe.
- A child who is home alone can contact parents and neighbors for help using Push 5.
